Contents

Contents	7
Chapter 1: Introduction.....	1
Scope of thesis.....	37
Chapter 2: Development of a Selective ESI-MS Derivatization Reagent: Synthesis and Optimization for the Analysis of Aldehydes in Biological Mixtures	41
Chapter 3: Development of an on-line weak-cation exchange solid phase extraction coupled to a liquid chromatography–tandem mass spectrometric method for screening aldehyde products in biological matrices.....	63
Chapter 4: Targeted LC–MS derivatization for aldehydes and carboxylic acids with a new derivatization agent 4-APEBA	85
Chapter 5: Development and optimization of a system for comprehensive two-dimensional liquid chromatography with UV and mass spectrometric detection for the separation of complex samples by multi-step gradient elution.....	109
Conclusions and perspectives.....	133
Summary	137
Samenvatting	141
List of publications.....	145
Dankwoord	147
